

BRIEF INFORMATION OF THE COMPANY

EEXII Manufacturing Sdn, Bhd were founded in 2006 and are manufacturing oil spill response equipment for the Oil and Gas sector. It is the only independent manufacturer of oil spill response equipment in South East Asia and the main manufacturing plant is situated in Shah Alam in Malaysia with an additional factory opened in 2015 in Jakarta, Indonesia.

EEXII employ the technical experts and engineering staff for development, design, production and distribution of these specialty products

EEXII Manufacturing have operated as service providers in this industry for more than 15 years and have gained a comprehensive knowledge of the effects of tropical weather on oil spill response equipment. This knowledge is now used for design and manufacturing especially with focus on permanently deployed booms, equipment for use at STS operations and on board FPSOs and other vessels used in Oil Spill Response.

EEXII Manufacturing owner/director is Niels Erik Jensen, who has been in OSR business for over 30 years and head of the production in Malaysia is Mr Mohd Khairol. The Indonesian activity is headed by a Malaysian engineer with more than 15 years experience is the oil spill response business.

OIL SPILL RESPONSE EQUIPMENT

EEXII Manufacturing design and manufacture a complete range of oil spill response equipment including oil containment booms, oil skimmers, hydraulic power packs, boom reels, dispersant sprayers, temporary storage tanks and other accessories.

Customer satisfaction is our main priority and we can assist the customer in choice of equipment, commissioning and installation to ensure a system that will serve our customers for many years.

All the oil spill response products are provided under strict quality control under a QA-system matching ISO 9000 standards.

Our OSR products have been supplied to many Malaysian customers, including PETRONAS Carigali, PIMMAG, Shell Refinery, Shell Sarawak, ExxonMobil, Bintulu Port, Vale Minerals, Department of Environment, Marine Department and many other private oil terminal operators. Our products have also been exported to Coast Guards and major Oil and Gas Companies in Indonesia, Philippines, Sri Lanka, Myanmar, Turkmenistan, Qatar, Iraq and Columbia in South America.

Since the beginning in 2006 we have sold more than 60 km of various types of boom for applications both in ports and offshore, more than 180 skimmers and 160 diesel dispersant spray units.

SERVICE AND MAINTENANCE

Several oil companies in Malaysia use our dedicated emergency response teams to service and maintain their OSR equipment and these teams are ready to mobilize the client's equipment within a few hours.

As another service to our customers EEXII also maintain an inventory of Tier 1 booms and skimmers that can be rented for long or short periods – or used in case of an accidental oil spill
